

Substitutions

After entries – before seed meeting: May not substitute for entries except for reasons of illness, injury, or school administration discipline. The substitution must be made at the flight affected with no other shifting of players up to the next flight. Must have verification in writing from doctor, trainer, etc., or school administration for disciplinary action.

After seeding meeting – before competition: Substitutions may be made after the seed meeting and prior to the first match of the individual's singles competition or doubles competition. The substitution must be based on illness, injury, or school administration discipline. Written statements must be presented to the meet director prior to competition. If this is not possible, the substitution will be at the discretion of the meet director.
