Dance 3. COMPETITIVE DANCE-Leo/Midriff language clarification (clarifying uniform/leotard rule- changes are reflected in the blue)

Uniform must cover midriff and anything below bra line while standing at attention before dance starts. Body tights cannot be a substitute for the sheer material. If wearing sheer material across the front of the midriff, there must be two layers, one of which is not a nude color. A nude leotard may be used to cover areas below the bra line on the back of the midriff. Wearing tights and a leotard provides modesty, support, helps with fast uniform changes, and ensures the uniform presents a continuous line and will cover the midriff. The front of the midriff and the back of the midriff are divided by the arms when the arms are directly by the dancer's side.

Golf 1. Change State Qualifying from Region back to a percentage - 55% Class A

Coaches would be able to coach their players anywhere, except on the greens. Change the percentage of individual state qualifiers to 55% and ties of each region. The team qualifications would remain the same (top 3 teams qualify as a team). Players who are a team that qualifies in the top 3 but are not individually in the top 55% do not count towards the 55%. These players are added on at the end. Essentially, this proposed rule change returns to the same qualifying procedure for the state tournament when the percentage was 60%.

Tennis 1. Substitution Rule Clarification (eliminates manipulation-eliminate strike through language).

~~After entries - Before Seeding Meeting.~~ ~~After making his/her entries, a coach shall not substitute for those entries except for reasons of illness, injury, or school administration discipline. The substitute(s) must be made at the flight affected with no other shifting of players up to the next flight. SDHSAA must have verification in writing from doctor, trainer, etc. for injury or illness, or from school administration for disciplinary action.~~

After Entries-Before Competition. Substitutes may be made after the entries are submitted and prior to his/her first match of the tournament. The substitution must be based on illness, injury or school administration discipline. Written statement must be presented to the meet director prior to competition. If this is not possible, the substitution will be at the discretion of the meet director.

The substitute designated to replace his/her teammate will do so in the same position as the person withdrawing from the tournament.

Any substitution(s) in singles competition would have to be a player(s) not already seeded or drawn into the singles competition. Likewise any substitute(s) in doubles competition would have to be a player(s) not already seeded or drawn into doubles competition. Coaches would not be allowed to switch their line-up to accommodate the substitution. There would not be a re-drawing or re-seeding of that flight unless it can be done in advance of the seed meeting.

After tournament has begun (singles and doubles). Substitution may be made after tournament has begun for injury or if illness occurs. The substitute cannot be a player who has already played in singles/doubles tournament. If a player withdraws, it must be by consent of trainer, meet director and/or SDHSAA meet official. Once a player has withdrawn and been replaced with a substitute, the replaced player is no longer eligible to compete in singles or doubles.
