

We Stand for More Than Our Acronym (1:00)

We are the NFHS. That stands for the National Federation of State High School Associations. But really, what we stand for, together with the SDHSAA, are the 29,000 high school sports and performing arts students in South Dakota. And so we stand...

We stand for the runners, debate team members and basketball players. We stand for their coaches, officials and adjudicators. We stand for the drummers, football players and actors. We stand for the golfers, singers and swimmers. We stand as the national leader and advocate for these essential activities and all who participate in them and make them possible because it is our purpose to ensure that high school students get to play, perform and compete together. To learn more about who we are and what we stand for, visit NFHS.org.
