

Find Your Voice (0:40)

Where do my friends and other students find their voice? We find our voice through the performing arts, along with millions of other high school students, by expressing yourself in a role on stage, through an instrument or at the debate podium. The performing arts give us freedom to find ourselves, to find our place. The stage is where I can play, perform and compete with my friends.

This message is brought to you by the NFHS and the South Dakota High School Activities Association, proudly overseeing music, speech, debate, theatre, visual arts, journalism, and student council in South Dakota.
