

SDCCTFOA 2024 Track & Field Clinics

Beginning with the 2024 Track & Field season, a clinic or jamboree is required periodically for SDHSAA registered track and field and cross-country officials. A new official is required to attend a clinic in their first or second year, and current officials are required to attend a clinic every three years to maintain their registered status.

The SDCCTFOA will present four in-person track & field clinics prior to the 2024 season.

Clinic Topics:

Topics include new NFHS rules; starting procedure and rules, with an emphasis on the new start rule; duties for the referee; javelin officiating, and an exercise to place 16 competitors in a HJ event.

All South Dakota high school track & field head coaches and Athletic Directors are invited and encouraged to attend any of the clinics.
