If a school requests and is granted permission, they will remain in the higher classification for a two-year alignment period. At the end of the two years, they could exercise their option again if they so desire. If a school requests to move up in one activity, they must move up one classification in all other activities that use the same classification formula.

UPDATED, 2020: For football classification purposes, If two (2) or more schools enter into a cooperative agreement, the larger school will be considered the “base” school and the smaller school(s) will be considered the “satellite” school(s). The entire ADM of the base school will be counted. The number of student participants from the satellite school(s) will be determined from the active participants listed on the roster submitted on the SDHSAA website on a staff-determined week of the preceding football season. For each active, rostered participant grades nine through eleven from the satellite school(s), 20% of that school’s ADM will be counted up to 100%..

Beginning in 2017-18 and 2018-19, the following additional rule changes are in effect governing co-operative agreements:

1. Football Only – Classifications/Grace Period. Rules that allow a nine-man team to apply for a two-year grace period are to remain in place. However, a requirement is now added that requires any team applying for a two-year grace period to demonstrate, using published South Dakota Department of Education figures, that the enrollment of the team in question will return to a nine-man classification level based upon those projections. Without this proof utilizing publicized numbers, no two-year grace period shall be granted.

2 – Football Only – Co-Operatives/Length: All co-operative agreements in the sport of football must now remain intact for a period of four years. If a co-op is broken by either school before four years have passed, neither school will be eligible for post-season play unless a hardship is granted by the SDHSAA Board of Directors.
